

The Good Book Boogie

© Alan Murray, 1994

$\text{♩} = 150$

I've got the de- vil on my left. I've got the de- vil on my right. But I've got
Je- sus out in front and we can blow him out - ta - sight So do the
Good Book Boo gie! Do the Good Book Boo gie! 'Cos when you
the Good Book Boo gie! the Good Book Boo gie!...

boo-gie with the book, you know you're rock- ing in the rhy- thm of the Son.

I've got the devil on my left. I've got the devil on my right.
But I've got Jesus out in front but we can blow him outasight

*So do the Good Book Boogie! Do the Good Book Boogie!
'Cos when you boogie with the book,
you know you're rocking in the rhythm of the Son.*

Now Mr. Devil takes exception to that Big Black Book,
'Cos it says in black and white that his goose is cooked.

They say it's all a fairytale for Philistine and Jew.
But the message that it gives me is invariably true.

If you look into the Bible, if you study it and read,
It will blow away the darkness like a beacon for your feet.

But if you thump upon your Bible, if you thunder and you rave,
Then you hide the love of God and the One who came to save.

He healed the sick and dying and he cured the lame
And if your spirit's kinda weary He can do it all again!

He walked upon the desert and He walked upon the sea.
And he's walking here and now inside of you and me.

They put him on a cross and then they put Him in a cave,
But He rolled away the stone and He defied the grave.

*This was written a long time ago! It's a real ZZ Top fast boogie with grungy guitar, thunderous drums and a screaming lead vocal. It got people bopping and almost always generated some grumbling from the old stagers. You'd have thought they'd be pleased that something actually allowed them to switch off the hearing aid and still hear.
Ho hum.*
